## CERTIFICATE

We hereby certify that our X-Ray Phantoms do contain real human skeletons that are of human origin, preserved and disinfected in Germany by means of organic solutions (alcoholic on ketone origin) and thereafter fortified with polymer.

This plastinated specimen is virtually germ free, not infectious and poses therefore no threat for ordinary infectious diseases. It is produced and preserved under the laws of Germany and complies with all legal restrictions.

This specimen is only to be used for educational and research purposes.

This plastinated specimen originates from the Institute for Plastination (=IfP) Body Donation Program.

We certify that this specimen has been produced, checked, packed, endorsed and approved to be of highest quality standards by IfP in Germany.

To be certified that this statement is true and correct:

Andreas Falk  
General Manager
